Digital Food Currency Pilot for DBT launched

Under the Central Bank Digital Currency (CBDC) Framework, digital coupons generated through the RBI will be credited directly to beneficiaries as programmable digital currency (e₹). Beneficiaries can redeem their entitled quantity of food grains at fair price shops or merchant outlets using CBDC coupon or voucher codes

AAT News Service

THE Central government has launched a Central Bank Digital Currency (CBDC)-based Digital Food Currency pilot for direct benefit transfer (DBT) under Pradhan Mantri Garib Kalyan Anna Yojana (PM-GKAY) in Puducherry.

The integration of CBDC in the public distribution system (PDS) marks a transformative milestone in India's food security architecture. It will enhance transparency, efficiency and beneficiary empowerment, ensuring that over eighty-crore beneficiaries receive their entitlements with greater clarity and accountability, said Pralhad Joshi, Union Minister for Consumer Affairs, Food and Public Distribution.

Highlighting the vision of 'Every grain, Every rupee, Every entitlements', while inaugurating the pilot project, in Puducherry, the minister said "the reform will strengthen awareness about entitlements, enable secure and real-time transactions, and further deepen the Digital India initiative ensuring secure, traceable and real-time transactions. PM-GKAY is the largest food security programme in the world. It is not only providing wheat and rice, but also providing millets to the beneficiaries which strengthens the nutritional security.

The international organisations set on record that 25 crore people have been brought out of multi-dimensional poverty during the last 11 years. The recent survey indicated that the

share of expenditure on food by Indian households came down by 50 per cent because of free food grains being provided by the Central government and also additional food grains being provided by the UT of Puducherry.

People are using their savings due to free food grain distribution for purchase of other nutritious commodities such as milk, vegetable etc. This not only provides food as well as nutrition security, but also lead to healthy and fit younger population and skilled hands for India and rest

of the world. Speaking on the occasion, Chief Minister of Puducherry, N Rangasamy said, the new initiative of CBDC is bringing in change in delivery of food grains and empowering citizens of Puducherry. The UT is providing additional food grains under PDS to its beneficiaries. The transfer of money by the Central government and supply of good quality rice by UT under its scheme is taking care of poor's imperative need of food security and keeping them away from hunger.

The amount coming in the bank through DBT and now in the wallet through CBDC will increase the beneficiary's motivation; give them self-confidence and empower them to take care of their food grain needs with the money available. It is indeed a great step which is providing money through CBDC wallet to beneficiaries directly without any other agencies or persons in between, added Mr Rangasamy.

of the world. Speaking on the occasion, Chief Minister of Puducherry, N Rangasamy said, the new initiative of CBDC is bringing in change in delivery of food grains and empowering citizens of Puducherry. The UT is providing additional food grains under PDS to its beneficiaries. The transfer of money by the Central government and supply of good quality rice by UT under its scheme is taking care of poor's imperative need of food security and keeping them away from hunger.
